

Abdullah

Website Developer · Application Developer · Back-end Developer

Berau, Indonesia +62 821 5504 8986 abdaja.9@gmail.com linkedin.com/in/abdullah-idn abdullahrpl.github.io

PROFILE

Detail-oriented Web and Application Developer with a strong focus on building efficient, user-friendly, and scalable systems. Possesses excellent problem-solving skills, effective communication, and adaptability, with a track record of delivering impactful and reliable solutions.

WORK EXPERIENCE

SMK IDN Boarding School July 2024 – Present

Project Study Cases | Software Developer

- Developed web and application projects as part of real-world case studies
- Designed and managed structured and reliable database systems
- Built and integrated APIs to support communication between systems
- Collaborated on developing solutions for real-world scenarios

ProSecurity Indonesia Developer February 2026 – April 2026

Software Developer

- Developed a desktop-based monitoring system capable of tracking real-time device status and hardware information
- Stored and managed device data in a structured database
- Implemented online/offline status tracking for connected devices
- Added functionality to manually input and update device values
- Integrated operating system detection for each device
- Collaborated with team members to ensure smooth execution of technical operations

TEACHING EXPERIENCE

Insan Madani School May 2025

Backend Instructor | IDN Mengajar

- Taught back-end development fundamentals, including basic server-side concepts
- Guided participants through hands-on practice in building simple web applications
- Delivered structured and easy-to-understand learning sessions

SMK Informatika Serang September 2025

Application Instructor | IDN Mengajar

- Introduced Flutter and its development tools for mobile applications
- Guided students in building simple mobile apps through practical sessions
- Empowered students to understand core concepts of application development

ACHIEVEMENTS & CERTIFICATIONS

Competitions & Awards

- 🏆 1st Place ICOMFEST Web Design Competition (National Level)
- 🏆 3rd Place INVOFEST Web Design Competition (National Level)

Certifications

- Introduction to GitHub Skilvul (May 2025)
- Introduction to Programming Using Python Codefinity (Jun 2024)
- Introduction to Blockchain Using Python Codefinity (Jun 2024)

- Python for Data Science, AI & Development Coursera(Feb 2026)
- Developing AI Applications with Python and Flask Coursera(April 2026)

SKILLS

Programming Languages

- PHP
- JavaScript
- Golang
- Python (Basic)

Frameworks

- Laravel
- Flutter

Backend

- REST API
- MVC Architecture
- Authentication
- CRUD System

Database

- MySQL
- Query Optimization

Tools

- Git
- VS Code

Languages

- Indonesia (Native)
- English (Communicative)

EDUCATION

SMK IDN Boarding School July 2024 – Present

Vocational High School - Software Developing

SMP IDN Boarding School July 2021 – July 2024

Junior High School

EVENTS & PARTICIPATION

Google Developer Group (GDG) July 2024

Google I/O Extended Bogor 2024, Universitas Pakuan

- Attended sessions on Generative AI, intelligent agent development using Gemini, and multimodal AI on Vertex AI.
- Gained insights into modern AI technologies and real-world applications.

Schoters Seminar April 2026

Exclusive Seminar Study Abroad S1/S2/S3, Hotel Amaroossa Bogor

- Participated in seminar sessions and workshops on international study opportunities
- Gained insights into global education pathways and application processes
